Open The Sound Case™ and think differently about teaching a child to read.

For teachers and parents alike, the first step is our essential online short preparation briefing. Developed in partnership with Lightspeed VT™, specialists in interactive virtual educational training, you will enjoy engaging with The Sound Case™.

Each purchase of The Sound Case unlocks our professional and quick to complete online training course for teachers to be confident going into their classes prepared and ready to help children succeed in reading.

Taught by experienced literacy intervention specialists who have taught children in our laboratory school at Phillips Fundamental Learning Center in Wichita, Kansas, USA, this online training helps assure your success in teaching children with dyslexia how to read for the first time.

Phillips Fundamental Learning Center did a great job of taking an overwhelming task and making it simple for teachers and parents – no matter where they are located. These are the tools to get a child who has reading difficulties, reading.

— Amber Jacobsen, Victor, Idaho

Phillips Fundamental Learning Center does not discriminate against staff, students, or parents of any race, color, national or ethnic origin, gender, gender expression or sexual orientation as to all the rights, privileges, programs, and activities generally accorded or made available to those who enter our facility. It does not discriminate on the basis of religious beliefs, race, color, national or ethnic origin, gender, gender expression or sexual orientation in administration of its educational policies, admissions policies, scholarship and loan programs, and athletic or other school-administered programs.

Phillips Fundamental Learning Center is a 501(c)(3) teacher/parent education center offering a teaching lab school for children 5 years - 10 years old – specializing in those with dyslexia and other reading related difficulties located in the heart of the nation.

“Amazing! The Sound Case™ kit is something I can use at home with my child or in my classroom tomorrow.”
— Emerging Reader, K-4th grade teacher

The Sound Case is developed for Kindergarten and 1st grade Tiers I through III instruction and 2nd grade remediation Tier III. These lessons are lightly scripted to enhance all 5 components identified in the “science of reading” research (phonemic awareness, vocabulary, phonics, fluency, and comprehension).

The first step is our essential online short preparation briefing. Developed along with Lightspeed VT™, specialists in interactive virtual educational training, teachers will enjoy engaging with The Sound Case. Find us at: funlearn.org/soundcase

The Sound Case is designed to provide the major first steps in a path that meets Federal guidelines. This program was developed to help a child learn to read, especially one who is dyslexic.

It addresses early childhood (5-7 year olds), is literacy-based, and develops the emerging literacy skills of phonological awareness and letter recognition.

Prevent reading failures, intervene or remediate K-1 with these 43 unique, scripted and structured literacy lesson cards.

Teach struggling readers, especially those with dyslexia to read, write and spell. And have fun doing it.
